**Notes:**

1) Cassius C. and Anna Cunningham are shown in the BLM database as co-patent holders in section 2. This map shows only Anna Cunningham as reflected on later ownership maps.

2. This map doesn't reflect Katherine (Frantz) Pritchard for her 1921 homestead patent in section 19 instead showing only the maiden name. This is consistent with the 1922 ownership map. Frantz is spelled Frautz in the BLM database for this patent.

3) The land covered by the Mary I. Waters' 1918 homestead patent is also shown in the BLM database as being transferred to the US in the 1950s?

4) The BLM database doesn't contain any patent information for the southeast quarter of the southeast quarter of section 30 nor for the south half of the southwest quarter of section 29. A copy of James R. Thompson's 1916 homestead patent clearly shows they should have been credited to that patent.
